Primary Care Partnerships

What we do

1 Partnerships

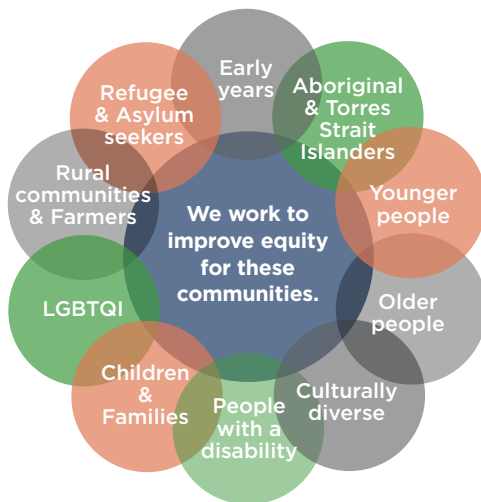

We build effective partnerships with the local community to improve health and wellbeing.

We do this by driving quality improvement and best practice across the system by sharing data, undertaking integrated planning, action and evaluation, workforce and resource development and community participation.

2 Addressing inequity

Our efforts focus on improving health & wellbeing for people experiencing vulnerability.

3 Areas of work

We work in system integration and prevention in the following areas:

 health literacy	 problem gambling
 social & cultural connectedness	 alcohol and other drugs
 housing & homelessness	 family violence
 education & employment	 prevention of violence against women
 climate change	 chronic disease
 active living	 community resilience
 mental health & wellbeing	 oral health
 disability	 healthy ageing
 healthy eating	 mobilising community will

Benefits

We have a deep understanding of the issues facing our local communities. We have demonstrated experience in bringing the right people together to work collaboratively to develop local solutions to local problems.

1

We are facilitating the local implementation of over 20 state government policies and reform agendas

Our work ensures that local outcomes align with Victorian government outcomes.

2

The impact of our partnership work is stronger local, regional and state-wide collaboration and action. This collaboration generates creativity and innovation, reduces duplication and healthcare costs.
