Primary Care Partnerships

What we do

1. Partnerships
   We build effective partnerships with the local community to improve health and wellbeing.
   We do this by driving quality improvement and best practice across the system by sharing data, undertaking integrated planning, action and evaluation, workforce and resource development and community participation.

2. Addressing inequity
   Our efforts focus on improving health & wellbeing for people experiencing vulnerability.

3. Areas of work
   We work in system integration and prevention in the following areas:

   - Health literacy
   - Social & cultural connectedness
   - Housing & homelessness
   - Education & employment
   - Climate change
   - Active living
   - Mental health & wellbeing
   - Disability
   - Healthy eating
   - Preventing harm from gambling
   - Alcohol and other drugs
   - Family violence
   - Prevention of violence against women
   - Chronic disease
   - Community resilience
   - Oral health
   - Healthy ageing
   - Mobilising community will

Benefits

1. We have a deep understanding of the issues facing our local communities. We have demonstrated experience in bringing the right people together to work collaboratively to develop local solutions to local problems.

2. We are facilitating the local implementation of over 20 state government policies and reform agendas
   Our work ensures that local outcomes align with Victorian government outcomes.

3. The impact of our partnership work is stronger local, regional and state-wide collaboration and action. This collaboration generates creativity and innovation, reduces duplication and healthcare costs.
